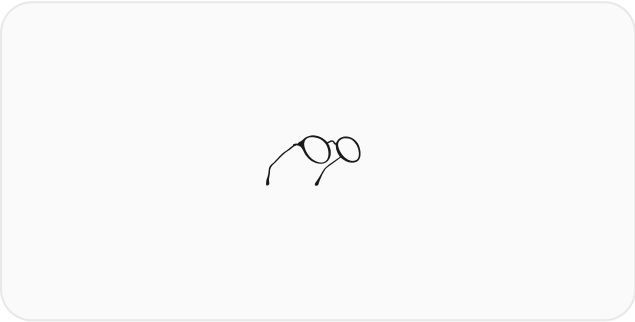
01

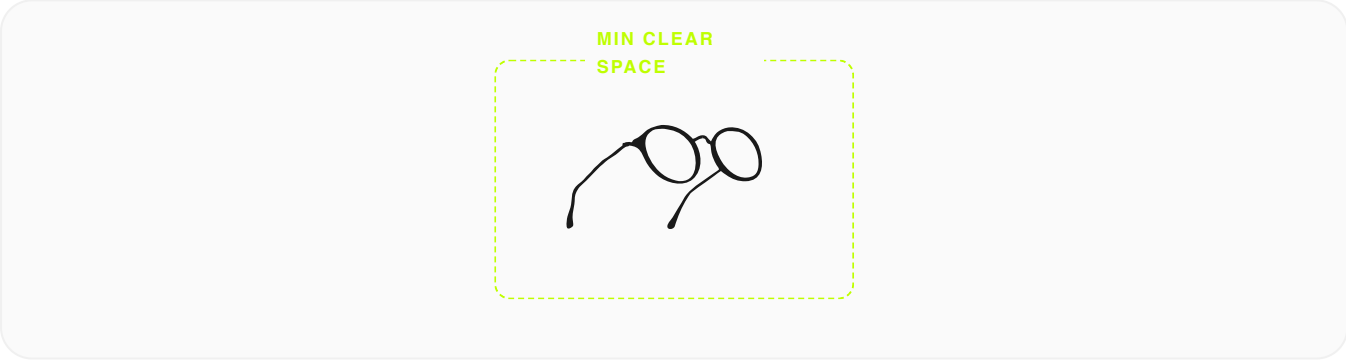
Logo

The glasses icon is the core brand mark. It represents seeing the world through different lenses — the foundation of Iván's work across physics, design, and language.

PRIMARY USAGE



CLEAR SPACE & MINIMUM SIZE



Always maintain a clear space around the logo equal to the height of one lens. This ensures the mark is never crowded by other elements.

Digital — 60px min

Print — 15mm min

02

A restrained palette built on clarity. White dominates. Black anchors. Neon green accents bring energy to specific moments.

03

Typography

Space Grotesk is the sole typeface. Bold and geometric, it brings clarity and modern confidence to every application.

05

Do's & Don'ts

Consistency protects the brand. These rules ensure the identity stays clean and recognizable across every touchpoint.

LOGO USAGE

✓ Use on white or very dark backgrounds

The logo needs strong contrast to read properly.

✗ Don't place on busy images

Never overlay the logo on complex photos without a solid backing.

✓ Keep it proportional

Always scale uniformly. Never stretch or compress the mark.

✗ Don't change the color

Only use black on light or white on dark. No gradients, no green fill.

✓ Respect clear space

Maintain minimum spacing around the mark at all times.

✗ Don't rotate or add effects

No shadows, outlines, 3D effects, or rotation on the logo.

COLOR USAGE

✓ Green for accents only

Section labels, small highlights, progress bars, hover states.

✗ Don't use green for large areas
